

Dear Parents/Guardians

Curriculum Day 22nd November 2011

We are extremely lucky to have Bright Futures visiting Bishop Fox's on Curriculum Day, 22nd November. Bright Futures are a company who will inspire and motivate whilst delivering some key strategies for revision. The students will receive a comprehensive study skills booklet, which includes a range of activities to suit all learning styles. They will keep the booklets for future reference and can plan to use them as mentoring aids. Each student will be invited to make some personal commitments during the programme, which teachers will follow up afterwards.

We plan for each student during the course of the day to experience the two hour session and the remainder of the day will be spent within the science department putting some of these strategies into action. We would also ask for a voluntary contribution of £4.00 (towards the cost of the revision session and the study booklets) and completion of the reply slip below to be returned to the school office no later than Friday 18th November.

Please be aware that if the voluntary contributions of £4 fail to cover the actual costs then the visit will not run.

We hope that all students will both enjoy and gain practical revision skills from the experience.

Yours sincerely

Mrs R Higgs
Head of Science
